SUMMARY

Passionate front-end developer and Year 4 student at SETEC Institute with experience building responsive web applications. I have developed personal projects including a portfolio website and a to-do app, focusing on clean UI and user-friendly design. Actively seeking an internship to gain real-world experience and grow as a developer.

EDUCATION

- University: SETEC Institute — Year 4, Semester 2 (Present)
- Major: Management Information Systems (MIS)
- High School Graduation: 2022
- High School: Srembel High School

SKILLS

- React Development
- Vite Framework
- HTML & CSS
- JavaScript Programming
- Responsive Design
- Version Control (Git)

EXPERIENCE / PROJECTS

Front-End Developer (Personal Projects)

Self-Directed Learning

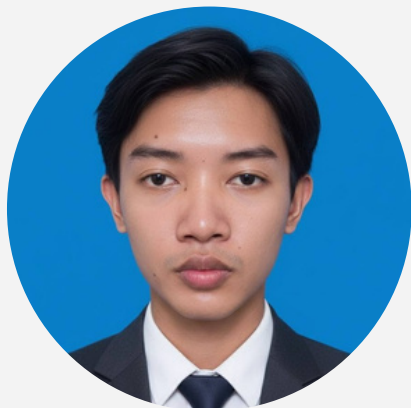

- Developed responsive web applications using HTML, CSS, and JavaScript
- Built and maintained a personal portfolio website to showcase projects and skills
- Implemented clean UI/UX design principles for better user experience
- Practiced working with Git and GitHub for version control and project management
- Gained understanding of API integration and data flow in web applications

Portfolio Website

- Designed and developed a modern, responsive portfolio website
- Showcases personal projects, skills, and contact information
- Focused on performance, layout, and user-friendly design
- Live: <https://profile.sokmany15.workers.dev/>

Weather App

- Developed a weather application using external API
- Fetched real-time weather data based on user input (city name)
- Displayed temperature, weather conditions, and other details dynamically
- Used fetch API and asynchronous JavaScript (async/await)
- Improved understanding of API requests, JSON data, and error handling
